Dinner & End of the Training

Invitation to Exclusive Executive Training:

“ AI & ESG ”

Dear Madam / Sir,

It is my pleasure to invite you to our 5th ESG Executive Training, taking place in the vibrant and inspiring setting of Chiang Mai in Thailand.

Following the success of our previous four ESG Executive Trainings in Valencia, Bali and Athens — where we welcomed 56 C-level executives from 13 countries across 6 regions, along with renowned impact investors including Impact Asset Management, CEB and Trill Impact — we are excited to bring together another exceptional group of leaders for four transformative days.

This edition marks an exciting new chapter: for the first time, we will explore the intersection of Artificial Intelligence and ESG, with a dedicated focus on practical applications for microfinance institutions and the broader financial inclusion sector.

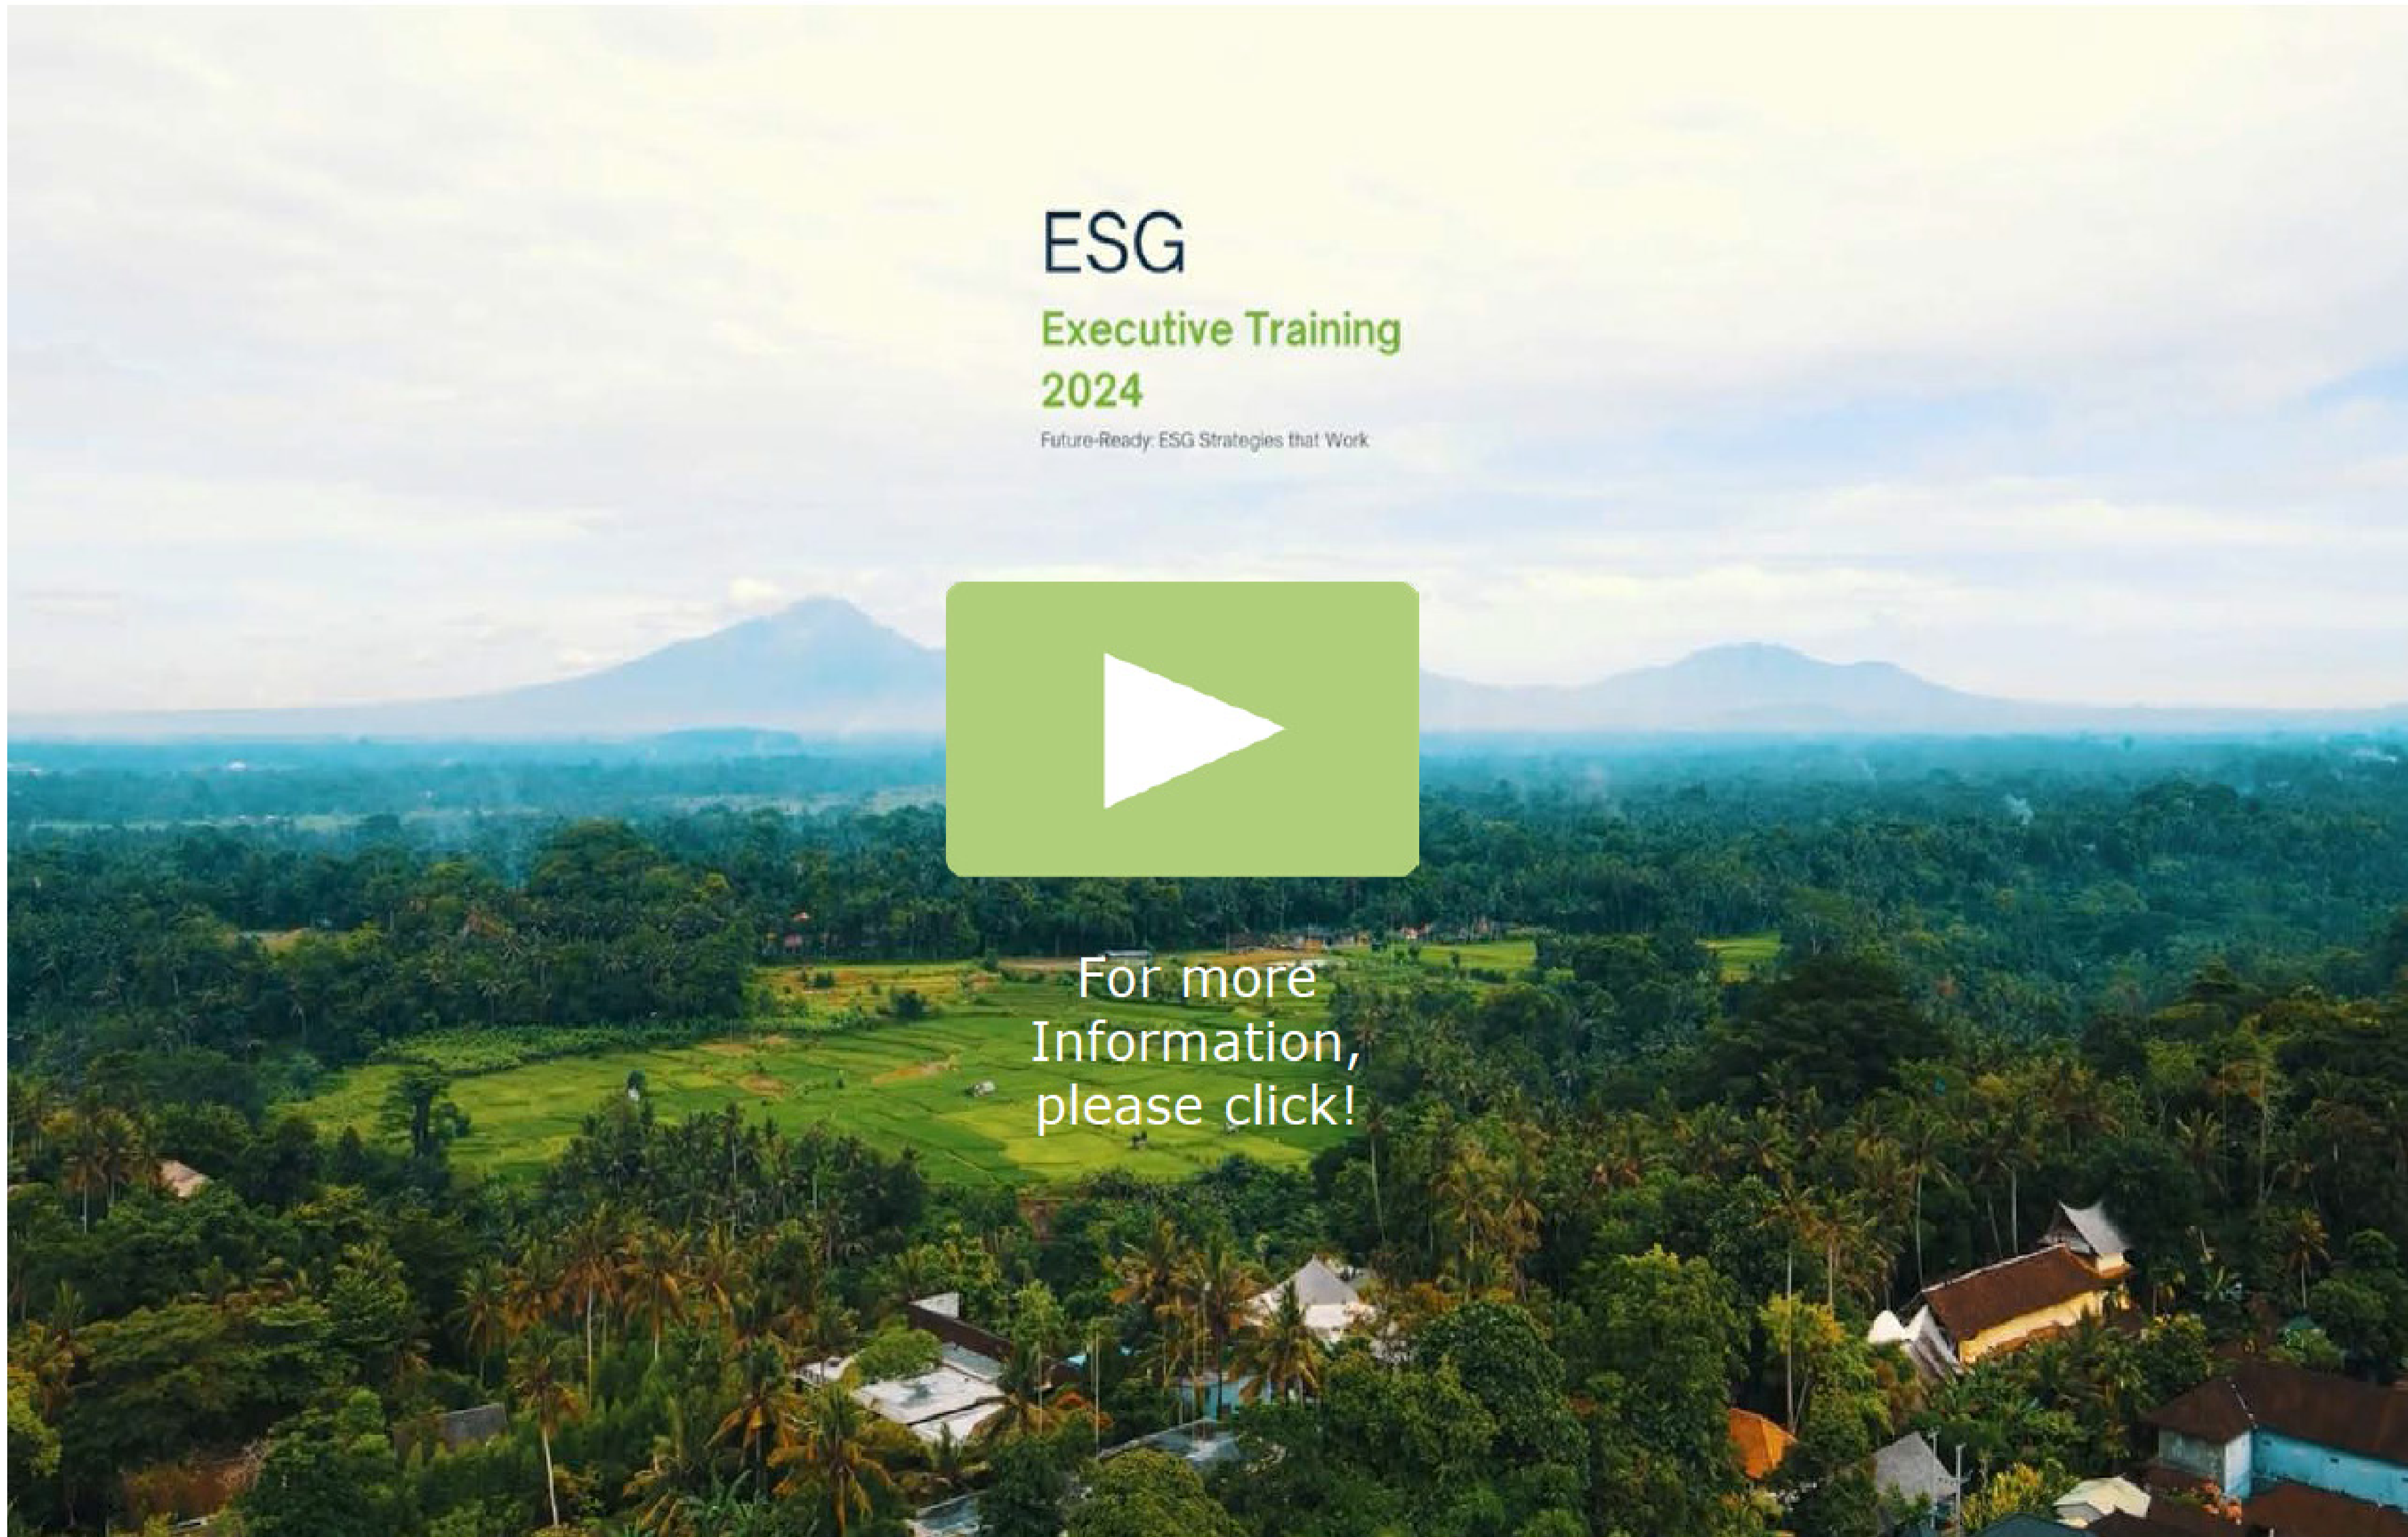

To get a glimpse of the energy and inspiration that define our trainings, we invite you to watch the video from our previous Bali event by clicking the link on the next page.

We look forward to welcoming you to Thailand this November.

Warm regards,
Dr. Andrij Fetsun

Meet this year's Keynote Speakers

Etienne de Belloy

Associate Director, Impact / Fund Manager at the Global Gender-Smart Fund

Étienne is Associate Director at Innpact and Fund Manager of the Global Gender-Smart Fund where he is responsible for the overall management of the \$600 million gender-focused microfinance fund with investments throughout developing markets globally.

Before joining Innpact, Étienne spent 11 years at the International Finance Corporation (IFC), where he gained deep expertise in sustainable finance across emerging markets. He holds an MBA degree with specialization in finance from ESSEC Business School.

Meet this year's Keynote Speakers

Rolf Enders

Investment Manager, CFA

Rolf is an Investment Manager at ATON and has close to 15 years of experience in the financial service industry. Before joining ATON in 2017, he worked as a management consultant at Capco and the financial service assurance team at Deloitte.

Rolf holds a Bachelor of Science (B.Sc.) in Business Administration from the University of Cologne, with a specialization in Finance and Banking and a Master of Accounting from Curtin Singapore.

He is a CFA charterholder.

Join us and more than 12k followers for the latest insights on sustainable finance.

Thank You
